CLEARWREN STUDY · WCAG 2.2

1,182 Confluence pages. Six checks explain most of what fails.

Measured on 13 public sites. Each one is mechanical to find and quick to fix.

MISSING ALT TEXT

LOW CONTRAST

BOLD AS HEADING

EMPTY ALT TEXT

NO TABLE HEADER

“CLICK HERE”

64%

of pages had no level A or AA failure

So about one page in three did. No site was clean.

Best site: about one page in eight still carried a failure.

Weakest site: two pages in three.

Average page score: 77 out of 100.

Sample figure. Treat it as roughly two in three, give or take about 8 points.

285 pages with images that have no alt text

1,474 issues · found on 12 of 13 sites

NO ALT TEXT

WITH ALT TEXT

```
alt="Bar chart of support tickets by month"
```

FIX Open the image toolbar and describe what the picture shows. Mark purely decorative images as decorative.

114 pages hold 1,396 contrast failures

12 of 13 sites. It is usually one colour, repeated.

2.5 : 1 · FAILS

Quarterly results are published in the finance space.

8.8 : 1 · PASSES

Quarterly results are published in the finance space.

FIX Change the value, not 114 pages. Reach 4.5 : 1 for body text, 3 : 1 for large headings.

146 pages use bold text instead of a heading

461 issues · found on 11 of 13 sites

BOLD PARAGRAPH

Travel policy

Looks like a heading. A screen reader reads it as plain text.

REAL HEADING · H2

Travel policy

Readers can jump to it and see the page structure.

FIX Select the line and apply a heading level from the text-style menu.

Flagged for a person to confirm

258 alt texts that do not describe the image

55 pages · found on 8 of 13 sites

FILLED IN, STILL EMPTY

```
alt="IMG_4021.png"
```

```
alt="image"
```

```
alt="(the caption, repeated)"
```

SAYS WHAT IT SHOWS

```
alt="Two analysts reviewing a report at a shared desk"
```

FIX Someone filled the field in and the information is still gone. This one needs authors to know what the field is for.

44 pages with a data table that has no header row

58 issues · found on 12 of 13 sites

NO HEADER ROW

Plan	Users
Team	11–100
Org	101–250

HEADER ROW ON

Plan	Users
Team	11–100
Org	101–250

FIX Select the first row and turn on “Header row” in the table toolbar.

41 pages with links that do not say where they go

59 issues · found on 11 of 13 sites

VAGUE	SPECIFIC
For the full process, click here.	Read the 2026 onboarding checklist.

FIX Rewrite the link text to name the destination.

Flagged for a person to confirm: fine when the sentence around it says where it goes

HOW WE MEASURED, AND WHAT THIS DOES NOT SHOW

A first measurement, with its limits.

13 public Confluence Cloud sites. Found through ordinary web search, not randomly selected.

Up to 100 random pages per site. Margin of about 8 points on the headline figure.

Same 32 rules as the product. Only certain failures count against a page.

11 of 55 level A and AA criteria. The rest need a person, and no tool can certify accessibility.

Aggregate only. No site is named. We build a Confluence checker, so we have a stake.

TRY IT ON YOUR OWN PAGES

Measure one of your own pages.

The free checker runs in your browser.
Nothing you type is sent anywhere.
